PT / EN

O programa In Situ Qualitative, da instituição cultural SALT (TR), analisa práticas culturais institucionais. Partindo do próprio conteúdo de SALT, os seus criadores e utilizadores, traçam-se mapas de rede que detalham e testam os efeitos dos indivíduos sobre as instituições. As **conversas In Situ Qualitative** reúnem curadores, arquitetos e artistas para abordar os temas "Superimposition" (Sobreimposição) e "Format" (Formato).

*In Situ Qualitative, by cultural institution SALT (TR) analyzes institutional cultural practices. Departing from SALT's own content, its creators and users, network maps are drawn, charting out the effects of individuals over institutions. The talks In Situ Qualitative bring together curators, architects and artists to discuss the themes of "Superimposition" and "Format".*
